## OBJECTIVE

---

As a dedicated developer, I excel in creating visually compelling frontend solutions. I thrive on challenges, believing in learning from failures to achieve true success. Diligent in administration, attainment, and organization.

## SKILLS

---

**Frontend** : React.js, Next.js, JavaScript (ES6), HTML, Cascading Style Sheets (CSS), Tailwind CSS.

**Backend** : Express.js, Node.js.

**Database** : MongoDB.

**Tools** : Figma, Git, Canva, VS Code, GitHub.

**Soft Skills** : Communication, Hard Working, Continuous Learning.

## PROJECTS

---

### 1. DiagPulse (Full Stack)

[Live Preview](#) | [Source Code: Client](#) | [Server](#)

(DIAGNOSTIC CENTER MANAGEMENT SYSTEM)

#### Key Features :

- ❖ A payment system has been implemented so users can make payments through the strip.
- ❖ Implemented discount feature using secret coupon codes for booking diagnostic tests.
- ❖ Admin can download all data of a particular user and his/her reservations in PDF format.

**Technologies:** react.js, ES6, Tailwind CSS, node.js, mongodb, expres.js, Firebase, tanstack, Axios.

### 2. Yummy Food (Full Stack)

[Live Preview](#) | [Source Code: Client](#) | [Server](#)

(THE BEST SITE TO DONATE FOOD OR REQUEST)

#### Key Features :

- ❖ Live Chat Support: Integrated live chat functionality for immediate user assistance.
- ❖ Food Donation: Detailed form to specify and donate food items.
- ❖ Food Request: Submission for individuals to request specific food items and pickup location.

**Technologies:** react.js, ES6, Tailwind CSS, node.js, mongodb, expres.js, Firebase, tanstack, Axios.

### 3. Lagoon (Full Stack)

[Live Preview](#) | [Source Code: Client](#) | [Server](#)

( A BEST SITE FOR TRAVEL LOVERS TO FIND AND ADD TRAVEL SPOTS )

#### Key Features :

- ❖ Users can add, view, update, and delete tourist spots.
- ❖ Implement sorting functionality on the "All Tourists Spot" page based on criteria like average cost.
- ❖ Enable users to view and update their personal information in their profiles.

**Technologies:** react.js, ES6, Tailwind CSS, node.js, mongodb, expres.js, Firebase, tanstack, Axios.

## EDUCATION

---

Masters in Arabic Studies.

Al-haiyatul Uliya Liljamiatil Qawmiya Bangladesh. Institution: Jamia Usmania Tongi Gazipur Bangladesh.

## COURSE AND ACHIEVEMENTS

---

Complete Web Development Course - Programming Hero

Session: January 2024 - May 2024

## LANGUAGE

---

Bangla - Native, English - Fluent, Arabic - comfortable, Urdu and hindi - comfortable
